Good Morning/Afternoon

New rules come into effect on 1st March 2021 as to how we are to account for VAT on building and construction services that need to be reported under CIS, and these mean that the customer will have to pay the VAT due to HMRC instead of the supplier.

The reverse charge will affect building and construction services supplied at the standard or reduced rates of VAT that also need to be reported under CIS, these are called specified supplies. The reverse charge does not apply if the service is zero rated for VAT or if the customer is not registered for VAT in the UK. It also does not apply to services supplied to end users or intermediaries connected with end users. There is more information on this on the HMRC website:

<https://www.gov.uk/guidance/vat-domestic-reverse-charge-for-building-and-construction-services>

We are not an 'end user' and therefore your invoices will now need to state that the reverse charge applies, and that we are to account for the VAT, and you are not to charge it on your invoices from 1st March 2021.

To clarify, our details are:

UTR number: **1782001279**
VAT registration number: **GB 435029370**
Company registration number: **1978401**

In the event that we would be the 'end user' we would give you written confirmation of this and the VAT should be treated as it has done previously (this will only be the case if you are carrying out works for us at our own property).

If you send us an invoice including VAT where it should not be included, we will be unable to process it and will have to return it to you.

This change in legislation may impact your cash flow and you may need to seek advice from your Accountant.

IMPORTANT

TO ALL CUSTOMERS:

31st July 2000

Dear Sirs,

RE: LIFTING OPERATIONS AND LIFTING EQUIPMENT REGULATIONS 1998

We have been requested by the HSE Health & Safety Executive, Field Operations Division to pass on a copy of the enclosed letter, which is self-explanatory, to all our current and future customers, alerting them to certain key requirements of LOLER 98.

If you require any further information or assistance please do not hesitate to contact us.

Assuring you of our best attention at all times.

Yours faithfully
For BRONZESHIELD LIFTING LTD.,

FLEET MANAGER

Health & Safety Executive
Field Operations Division

Bronzeshield Lifting Ltd
Crane Works,
Purfleet By Pass
Purfleet
Essex RM19 1TT

Our ref :FMU82\Cranes\10227

Date : 26 July 2000

Dear Sirs,

LIFTING OPERATIONS AND LIFTING EQUIPMENT REGULATIONS 1998

Inspection and investigation in this Region has identified a worrying lack of knowledge of the above Regulations on the part of individuals and organisations that hire cranes. I am therefore writing to seek your assistance in alerting current and future customers to certain key requirements of LOLER 98.

Planning and Supervision - Regulation 8

It is a strict legal requirement on your clients* to appoint a Competent Person to plan all lifting operations and a Supervisor to ensure that the lift is carried out in accordance with the prepared plan. In BS7121 these roles are referred to as the "Appointed Person" and "Crane Supervisor". In some cases we have found that where persons have been appointed they have not been trained and competent to fulfil these roles as required by Regulation 9 of PUWER '98.

Mobile Crane Stability - Regulation 4

In our experience the majority of mobile crane overturning incidents result from inadequate support beneath the crane outriggers. It is vital that the area and layout of outrigger support is calculated upon the predicted actual outrigger loads arising from the lifting operation and an assessment of the safe ground bearing pressure. Indeed, this is a central aspect of all mobile crane lifting plans.

At site visits H M Inspectors will examine these matters. Failure to comply will result in Inspectors having to consider enforcement action, including prosecution, and prohibiting lifting operations until matters have been remedied. I would therefore be grateful if you would pass a copy of this letter to your customers so that they might, where necessary, take steps to ensure that such enforcement action is not required on their sites.

Yours Faithfully

P S Poynter

H M Principal Inspector

* Unless these roles are taken by others e.g. by you under a "Contract Lift"
